

• 12-WEEK EXECUTION PLANNER

SDET Interview 12-Week Execution Plan

2.5 – 3 Years Experience · Target ₹24–30 LPA

A week-by-week, day-by-day execution planner — not a textbook.
Built around your real schedule to take you from foundation revision
to full interview readiness in 12 weeks.

3 Phases · 8 Mocks · 1 Offer

The Plan at a Glance

Mon–Fri 1 hr / day	Saturday 4 hrs	Sunday 4 hrs	13 hrs per week	156 hrs total
------------------------------	--------------------------	------------------------	---------------------------	-------------------------

PHASE 1 • FOUNDATIONS & REVISION

01	Java Foundations Reboot	Reset Core Java fundamentals and re-establish a daily coding rhythm.
02	OOP & Collections + Selenium Waits	Master OOP depth and the Collections framework while stabilising Selenium synchronisation.
03	Java 8 + Advanced Locators	Become fluent in Java 8 functional style and advanced element interaction.
04	Exceptions, TestNG & Git — Month 1 Milestone MILESTONE	Close core-Java gaps, add TestNG + Git, and ship your first mini-framework.

PHASE 2 • DEPTH, FRAMEWORKS & CI/CD

05	Concurrency + Framework Design Begins	Understand concurrency and start architecting a real automation framework.
06	JVM Internals + Playwright Launch	Learn JVM internals and stand up a Playwright suite with fixtures and hooks.
07	Design Patterns + Playwright Advanced	Apply design patterns to your framework and master advanced Playwright + API chaining.
08	CI/CD Integration — Month 2 Milestone MILESTONE	Run the full UI + API framework in CI and complete a mid-programme mock.

PHASE 3 • DESIGN, MOCKS & INTERVIEW READINESS

09	System Design for SDETs	Think and communicate like an architect about test strategy and framework design.
10	Technical Mock Interviews	Simulate real technical rounds under time pressure and score readiness.
11	Company-Specific + Gap Closing	Tailor preparation to target companies and remediate remaining gaps.
12	Interview Readiness & Final Revision MILESTONE	Peak, revise from memory, and go into interviews calm and rehearsed.

Target: SDET roles at ₹24–30 LPA • 2.5–3 years experience. Progress from foundation revision (Weeks 1–4) to frameworks & CI/CD (Weeks 5–8) to design, mocks & interview readiness (Weeks 9–12).

WK
01

PHASE 1 • FOUNDATIONS & REVISION

Java Foundations Reboot

Reset Core Java fundamentals and re-establish a daily coding rhythm.

13
hrs
this week

TOPICS TO STUDY Core Java refresh • Selenium setup • HTTP basics • SQL SELECT • Resume rewrite

JAVA

JDK/JRE/JVM, architecture, data types, operators, control statements, OOP intro

CODING

Numbers, patterns, string basics

SELENIUM / PLAYWRIGHT

Selenium architecture, WebDriver setup, locators

API

HTTP, HTTPS, methods, status codes, headers

SQL

SELECT, WHERE, ORDER BY

BEHAVIORAL

Resume audit & rewrite into STAR-ready bullets

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Revise JDK/JRE/JVM, data types, operators; solve 2 number problems	1 hr
TUE	Playwright / Selenium	Selenium architecture + WebDriver setup; write 3 locator scripts	1 hr
WED	Java + Coding	Control statements, methods, arrays, strings; solve 2 pattern problems	1 hr
THU	API Automation	Explore HTTP methods, status codes & headers in Postman	1 hr
FRI	SQL + Behavioral	Practice SELECT / WHERE / ORDER BY; begin resume rewrite	1 hr
SAT	Deep Practice • Framework • Coding Review	Set up environment (Java + IDE + Maven + Git); 6 pattern/number problems; 5 locator scripts	4 hrs
SUN	Revision • Assessment • Planning	Revise the week • take Weekly Assessment • plan Week 2	4 hrs

DELIVERABLES

Updated resume draft • working dev environment (Java, IDE, Maven, Git)

WEEKEND ASSIGNMENT

Solve 10 pattern/number problems and write 5 Selenium locator scripts.

WEEKLY ASSESSMENT

15 Core Java MCQs + 3 timed coding problems.

REVISION PLAN

Sunday: OOP concepts + Selenium locators flashcards.

OOP & Collections + Selenium Waits

Master OOP depth and the Collections framework while stabilising Selenium synchronisation.

TOPICS TO STUDY OOP deep dive • Collections • Waits/frames • GROUP BY • LinkedIn

JAVA

Inheritance, polymorphism, abstraction, encapsulation, interfaces; Collections intro

CODING

Arrays, HashMap problems

SELENIUM / PLAYWRIGHT

Waits (implicit/explicit/fluent), frames, alerts, windows

API

Request/response, headers, cookies, sessions

SQL

GROUP BY, HAVING, aggregate functions

BEHAVIORAL

LinkedIn profile optimisation

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	OOP — constructors, this/super, inheritance; 2 array problems	1 hr
TUE	Playwright / Selenium	Waits (implicit/explicit/fluent) + frames; 3 scripts	1 hr
WED	Java + Coding	Polymorphism, abstraction, encapsulation, interfaces; 2 HashMap problems	1 hr
THU	API Automation	Request/response, headers, cookies & sessions in Postman	1 hr
FRI	SQL + Behavioral	GROUP BY, HAVING, aggregates; revamp LinkedIn headline & About	1 hr
SAT	Deep Practice • Framework • Coding Review	Collections deep dive; automate a login + form flow; 8 array/map problems	4 hrs
SUN	Revision • Assessment • Planning	Revise the week • take Weekly Assessment • plan Week 3	4 hrs

DELIVERABLES

Collections cheat-sheet • 8 Selenium scripts (waits & frames)

WEEKEND ASSIGNMENT

Solve 12 array/HashMap problems and automate a login + form submission flow.

WEEKLY ASSESSMENT

Collections quiz + 3 array problems (timed).

REVISION PLAN

Saturday review of coding; Sunday: Collections + waits.

WK
03

PHASE 1 • FOUNDATIONS & REVISION

Java 8 + Advanced Locators

Become fluent in Java 8 functional style and advanced element interaction.

13
hrs
this week

TOPICS TO STUDY Java 8 • Streams • Actions/JS Executor • Auth basics • Joins

JAVA

Lambdas, functional interfaces, Streams API, Optional, method references

CODING

Java 8 stream problems, string manipulation

SELENIUM / PLAYWRIGHT

Actions class, JavaScript Executor, Shadow DOM, relative locators

API

Basic Authentication, Bearer Token

SQL

Joins — inner, left, right, full

BEHAVIORAL

Structure your project explanation using STAR

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Lambdas + functional interfaces; 2 Streams problems	1 hr
TUE	Playwright / Selenium	Actions class + JS Executor; dropdown/hover scripts	1 hr
WED	Java + Coding	Streams API, Optional, method references; 2 Java 8 problems	1 hr
THU	API Automation	Basic Auth & Bearer Token in Postman	1 hr
FRI	SQL + Behavioral	Joins (inner/left/right/full); draft one STAR project story	1 hr
SAT	Deep Practice • Framework • Coding Review	8 Streams problems; Shadow DOM + relative locator scripts	4 hrs
SUN	Revision • Assessment • Planning	Revise the week • take Weekly Assessment • plan Week 4	4 hrs

DELIVERABLES

Java 8 one-liner cookbook • Shadow DOM handling script

WEEKEND ASSIGNMENT

Solve 10 Streams problems and automate a table scrape + validation.

WEEKLY ASSESSMENT

Java 8 coding test (5 problems).

REVISION PLAN

Sunday: Streams patterns + SQL joins.

WK
04

Exceptions, TestNG & Git — Month 1 Milestone

13
hrs
this week

Close core-Java gaps, add TestNG + Git, and ship your first mini-framework.

TOPICS TO STUDY Exceptions/Generics • TestNG/Grid • OAuth/JWT • Subqueries • Git

JAVA

Exception handling, Generics, File handling

CODING

Stack, Queue problems

SELENIUM / PLAYWRIGHT

TestNG/JUnit, Selenium Grid, parallel execution, best practices

API

OAuth 2.0, JWT

SQL

Subqueries, CASE

DEVOPS

Git & GitHub — branching, merge, rebase, cherry-pick

BEHAVIORAL

Two ownership & impact STAR stories

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Exception handling + custom exceptions; 2 stack problems	1 hr
TUE	Playwright / Selenium	TestNG annotations, Grid, parallel execution	1 hr
WED	Java + Coding	Generics + file handling; 2 queue problems	1 hr
THU	API Automation	OAuth 2.0 & JWT auth flow	1 hr
FRI	SQL + Behavioral	Subqueries + CASE; write 2 ownership STAR stories	1 hr
SAT	Deep Practice • Framework • Coding Review	Build a 5-test Selenium POM mini-project + push to GitHub; 8 stack/queue problems	4 hrs
SUN	Revision • Assessment • Planning	MONTH 1 MOCK (Core Java + coding, 45 min) • milestone review • plan Month 2	4 hrs

DELIVERABLES

Selenium POM mini-project on GitHub (5 tests, TestNG, config)

WEEKEND ASSIGNMENT

Build the 5-test POM suite and solve 10 stack/queue problems.

WEEKLY ASSESSMENT

Month 1 Mock — Core Java + coding (45 min) + milestone checklist.

REVISION PLAN

Full Month 1 revision using all cheat-sheets.

WK
05

PHASE 2 • DEPTH, FRAMEWORKS & CI/CD

Concurrency + Framework Design Begins

Understand concurrency and start architecting a real automation framework.

13
hrs
this week

TOPICS TO STUDY Multithreading · POM framework · REST Assured setup · Views/CTE · Maven

JAVA

Multithreading, synchronization, Executor framework, Callable, Future

CODING

Linked List, recursion basics

SELENIUM / PLAYWRIGHT

Framework architecture, POM, Page Factory, config management

API

REST Assured setup, request/response specification

SQL

Views, indexes, CTE

DEVOPS

Maven project structure & lifecycle

BEHAVIORAL

Conflict-resolution stories

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Threads, Runnable, synchronization; 2 linked list problems	1 hr
TUE	Playwright / Selenium	Framework architecture, POM, Page Factory	1 hr
WED	Java + Coding	Executor framework, Callable, Future; 2 recursion problems	1 hr
THU	API Automation	REST Assured setup + request/response spec	1 hr
FRI	SQL + Behavioral	Views, indexes, CTE; draft a conflict-resolution story	1 hr
SAT	Deep Practice · Framework · Coding Review	Build REST Assured base framework + data-driven layer; 8 linked list problems	4 hrs
SUN	Revision · Assessment · Planning	Revise the week · take Weekly Assessment · plan Week 6	4 hrs

DELIVERABLES

REST Assured base framework skeleton (config + spec + data layer)

WEEKEND ASSIGNMENT

Build the data-driven layer and solve 10 linked list problems.

WEEKLY ASSESSMENT

Multithreading quiz + 3 coding problems.

REVISION PLAN

Sunday: concurrency + framework structure.

WK
06

PHASE 2 • DEPTH, FRAMEWORKS & CI/CD

JVM Internals + Playwright Launch

Learn JVM internals and stand up a Playwright suite with fixtures and hooks.

13
hrs
this week

TOPICS TO STUDY JVM/GC • Playwright core • Serialization/schema • Window functions • CI intro

JAVA

JVM memory, garbage collection, memory management, performance basics

CODING

Trees (traversal, BST), recursion

SELENIUM / PLAYWRIGHT

Playwright architecture, project structure, locators, assertions, fixtures, hooks

API

Serialization/deserialization, JSON/XML, JSON schema validation

SQL

Window functions

DEVOPS

Jenkins basics, GitHub Actions intro

BEHAVIORAL

Leadership & mentoring stories

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	JVM memory model + GC; 2 tree problems	1 hr
TUE	Playwright / Selenium	Playwright architecture, project structure, locators, assertions	1 hr
WED	Java + Coding	Memory management + performance basics; 2 recursion/tree problems	1 hr
THU	API Automation	JSON/XML serialization + schema validation	1 hr
FRI	SQL + Behavioral	Window functions; draft a leadership/mentoring story	1 hr
SAT	Deep Practice • Framework • Coding Review	Playwright suite with fixtures & hooks; 6 tree problems	4 hrs
SUN	Revision • Assessment • Planning	Revise the week • take Weekly Assessment • plan Week 7	4 hrs

DELIVERABLES

Playwright starter project • JSON schema validation tests

WEEKEND ASSIGNMENT

Build a Playwright suite for a demo app and solve 8 tree problems.

WEEKLY ASSESSMENT

Trees coding test + JVM quick quiz.

REVISION PLAN

Sunday: JVM internals + Playwright basics.

Design Patterns + Playwright Advanced

Apply design patterns to your framework and master advanced Playwright + API chaining.

TOPICS TO STUDY Patterns • PW network/mocking • API chaining • Procedures • Docker

JAVA

Design patterns — Factory, Singleton, Builder, Strategy

CODING

Sliding window, two pointer

SELENIUM / PLAYWRIGHT

Auth & storage state, network interception & mocking, API testing, file upload/download

API

API chaining, CRUD end-to-end, error handling

SQL

Stored procedures, transactions

DEVOPS

Docker basics, Docker Compose

SYSTEM DESIGN

Test pyramid, automation strategy (intro)

BEHAVIORAL

Handling failure & feedback stories

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Factory + Singleton patterns; 2 sliding-window problems	1 hr
TUE	Playwright / Selenium	Playwright auth/storage state + network interception & mocking	1 hr
WED	Java + Coding	Builder + Strategy patterns; 2 two-pointer problems	1 hr
THU	API Automation	API chaining, CRUD end-to-end, error handling	1 hr
FRI	SQL + Behavioral	Stored procedures + transactions; draft a failure/feedback story	1 hr
SAT	Deep Practice • Framework • Coding Review	Build hybrid framework with patterns + dockerize a suite; 10 window/two-pointer problems	4 hrs
SUN	Revision • Assessment • Planning	Revise the week • take Weekly Assessment • plan Week 8	4 hrs

DELIVERABLES

Hybrid framework using design patterns • API chaining suite

WEEKEND ASSIGNMENT

Solve 12 sliding-window/two-pointer problems and dockerize the test suite.

WEEKLY ASSESSMENT

DSA patterns test + framework code review.

REVISION PLAN

Sunday: patterns + advanced Playwright.

WK
08

PHASE 2 • DEPTH, FRAMEWORKS & CI/CD

CI/CD Integration — Month 2 Milestone

Run the full UI + API framework in CI and complete a mid-programme mock.

13
hrs
this week

TOPICS TO STUDY Perf tuning • PW reports/CI • Contract/mock APIs • Normalization • K8s/AWS/Linux

JAVA

Performance optimization + best practices recap

CODING

Backtracking basics, mixed medium set

SELENIUM / PLAYWRIGHT

Playwright reports, trace viewer, debugging, CI/CD integration, parallel execution

API

Contract testing, mock APIs, rate limiting, pagination, versioning, performance basics

SQL

Normalization, performance optimization

DEVOPS

Kubernetes basics, AWS basics, Linux basics

BEHAVIORAL

Salary & HR round research

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Performance optimization + best practices; 2 backtracking problems	1 hr
TUE	Playwright / Selenium	Playwright reports, trace viewer, debugging, CI/CD integration	1 hr
WED	Java + Coding	Timed mixed-medium coding set; 3 problems	1 hr
THU	API Automation	Contract testing, mock APIs, pagination, versioning, rate limiting	1 hr
FRI	SQL + Behavioral	Normalization + query tuning; research salary bands & HR questions	1 hr
SAT	Deep Practice • Framework • Coding Review	Full UI+API framework in CI (GitHub Actions/Jenkins) + Docker + reports; 8 mixed problems	4 hrs
SUN	Revision • Assessment • Planning	MONTH 2 MOCK (Automation + API + coding, 60 min) • milestone • plan Month 3	4 hrs

DELIVERABLES

Full UI + API framework running in CI with reports + Docker

WEEKEND ASSIGNMENT

Wire the framework to GitHub Actions/Jenkins and solve 10 backtracking/mixed problems.

WEEKLY ASSESSMENT

Month 2 Mock — Automation + API + coding (60 min) + milestone checklist.

REVISION PLAN

Full Month 2 revision.

WK
09

PHASE 3 • DESIGN, MOCKS & INTERVIEW READINESS

System Design for SDETs

Think and communicate like an architect about test strategy and framework design.

13
hrs
this week

TOPICS TO STUDY Automation architecture • SOLID • HLD/LLD • Microservices testing • Story bank

SYSTEM DESIGN

Automation architecture, testing strategy, microservices testing, HLD/LLD, scalability, maintainability, SOLID

JAVA

SOLID principles applied in code

CODING

Mixed medium set (timed)

SELENIUM / PLAYWRIGHT

Framework scalability & design review

API

Microservices & contract-testing strategy

SQL

Query optimization drills

BEHAVIORAL

Build a 6-story STAR bank

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	SOLID principles in code; 2 mixed problems	1 hr
TUE	Playwright / Selenium	Automation architecture — scalability & maintainability review	1 hr
WED	Java + Coding	HLD vs LLD for test frameworks; 2 mixed problems	1 hr
THU	API Automation	Microservices & contract-testing strategy	1 hr
FRI	SQL + Behavioral	Query optimization drills; build a 6-story STAR bank	1 hr
SAT	Deep Practice • Framework • Coding Review	Write an automation architecture doc + diagram; whiteboard design mock; 10 mixed problems	4 hrs
SUN	Revision • Assessment • Planning	System design self-mock • assessment • plan Week 10	4 hrs

DELIVERABLES

Written automation architecture doc + framework diagram

WEEKEND ASSIGNMENT

Design an automation framework for a given system (whiteboard) and solve 12 mixed problems.

WEEKLY ASSESSMENT

System Design mock (verbal walk-through, 30 min).

REVISION PLAN

Sunday: system design + SOLID.

WK
10

PHASE 3 • DESIGN, MOCKS & INTERVIEW READINESS

Technical Mock Interviews

Simulate real technical rounds under time pressure and score readiness.

13
hrs
this week

TOPICS TO STUDY Rapid Java Q&A • Live coding • Automation deep-dive • API & SQL rounds

FOCUS

Simulate real interview rounds; log feedback after each

JAVA

Rapid-fire Core Java + Java 8 Q&A

CODING

Live coding practice (2 problems/session)

SELENIUM / PLAYWRIGHT

Automation deep-dive Q&A + live scripting

API

API round mock

SQL

SQL round mock

BEHAVIORAL

Behavioral mock round

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Rapid-fire Java/Java 8 Q&A; 2 live-coding problems	1 hr
TUE	Playwright / Selenium	Automation deep-dive Q&A + live scripting	1 hr
WED	Java + Coding	Live coding drill — 2 problems, 25 min each	1 hr
THU	API Automation	API round mock (design + debug)	1 hr
FRI	SQL + Behavioral	SQL round mock; behavioral warm-up	1 hr
SAT	Deep Practice • Framework • Coding Review	Two full technical mocks (Java+Coding; Automation+API) + log feedback	4 hrs
SUN	Revision • Assessment • Planning	Readiness scoring round 1 • revise weakest 2 areas • plan Week 11	4 hrs

DELIVERABLES

Mock feedback log with scored gaps per round

WEEKEND ASSIGNMENT

Run 2 full technical mocks (Java+Coding and Automation+API).

WEEKLY ASSESSMENT

Interview Readiness Matrix — scoring round 1.

REVISION PLAN

Sunday: two weakest areas surfaced by mocks.

WK
11

PHASE 3 • DESIGN, MOCKS & INTERVIEW READINESS

Company-Specific + Gap Closing

Tailor preparation to target companies and remediate remaining gaps.

13
hrs
this week

TOPICS TO STUDY Company-tagged problems • Scenario Q&A • 2nd design mock • Negotiation

FOCUS

Target-company patterns (product vs service) + gap remediation

JAVA / CODING

Company-tagged problems; retry weak topics

SELENIUM / PLAYWRIGHT

Framework Q&A refinement + scenario questions

API / SQL

Scenario-based questions

SYSTEM DESIGN

Second design mock

BEHAVIORAL

Company-specific behavioral + salary negotiation practice

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Company-tagged Java/coding problems; retry weak topics	1 hr
TUE	Playwright / Selenium	Framework Q&A refinement + scenario questions	1 hr
WED	Java + Coding	Company-tagged coding — 2 problems	1 hr
THU	API Automation	Scenario-based API questions	1 hr
FRI	SQL + Behavioral	Scenario SQL; company-specific behavioral + negotiation practice	1 hr
SAT	Deep Practice • Framework • Coding Review	Two full mocks (System Design; Behavioral) + build company cheat-packs	4 hrs
SUN	Revision • Assessment • Planning	Readiness scoring round 2 • targeted gap revision • plan Week 12	4 hrs

DELIVERABLES

A 2-page cheat-pack per target company

WEEKEND ASSIGNMENT

Run 2 full mocks (System Design and Behavioral) and complete company research.

WEEKLY ASSESSMENT

Interview Readiness Matrix — scoring round 2.

REVISION PLAN

Sunday: targeted gaps from round-2 scoring.

WK
12

PHASE 3 • DESIGN, MOCKS & INTERVIEW READINESS

Interview Readiness & Final Revision

Peak, revise from memory, and go into interviews calm and rehearsed.

13
hrs
this week

TOPICS TO STUDY Flash revision • Re-solve core problems • Final STAR • Portfolio polish

FOCUS

Peak, revise, rest — no new topics

JAVA

Flash-revise Core Java + Java 8 via cheat-sheets

CODING

Re-solve 25 core problems from memory

SELENIUM / PLAYWRIGHT

Rehearse framework talking points

API / SQL

Flash-revise cheat-sheets

BEHAVIORAL

Final STAR rehearsal + finalise negotiation numbers

Daily Plan

Day	Focus	Today's Task	Time
MON	Java + Coding	Flash-revise Java + Java 8 (cheat-sheet); 2 warm-up problems	1 hr
TUE	Playwright / Selenium	Flash-revise automation + framework talking points	1 hr
WED	Java + Coding	Re-solve 5 core problems from memory	1 hr
THU	API Automation	Flash-revise API + SQL cheat-sheets	1 hr
FRI	SQL + Behavioral	Final STAR rehearsal; finalise negotiation numbers	1 hr
SAT	Deep Practice • Framework • Coding Review	One full end-to-end mock + clean GitHub/portfolio + finalise resume	4 hrs
SUN	Revision • Assessment • Planning	Final Readiness Matrix • light review • rest before interviews	4 hrs

DELIVERABLES

Final resume • cleaned GitHub/portfolio • locked STAR story bank

WEEKEND ASSIGNMENT

Run 1 full end-to-end mock, then keep it light and rest.

WEEKLY ASSESSMENT

Final Interview Readiness Matrix — every round 4★ or higher.

REVISION PLAN

Full-syllabus flash revision from flashcards.

Your Command Centre

Track every week, every problem, every mock — and know exactly when you are ready.

Monthly Milestones

Month 1

Weeks 1–4

FOUNDATIONS LOCKED

- ☐ Core Java + Java 8 fluent and revised
- ☐ ~70 coding problems solved
- ☐ Selenium POM mini-project live on GitHub
- ☐ Resume + LinkedIn rebuilt
- ☐ Git workflow (branch, merge, rebase) confident

Month 2

Weeks 5–8

FRAMEWORKS & SCALE

- ☐ REST Assured + Playwright + hybrid framework built
- ☐ Framework running in CI/CD with Docker + reports
- ☐ Advanced SQL + concurrency mastered
- ☐ ~150 cumulative problems solved
- ☐ Design patterns applied in automation

Month 3

Weeks 9–12

INTERVIEW READY

- ☐ System design & architecture fluent
- ☐ 6+ full mock interviews completed
- ☐ All readiness rows at 4★ or higher
- ☐ Company cheat-packs + STAR bank locked
- ☐ Negotiation strategy prepared

Progress Dashboard

Log planned vs completed hours each week. Amber = behind, green = on track.

Week	Theme	Phase	Planned	Done	Status
W01	Java Foundations Reboot	Phase 1	13		Not Started
W02	OOP & Collections + Selenium Waits	Phase 1	13		Not Started
W03	Java 8 + Advanced Locators	Phase 1	13		Not Started
W04	Exceptions, TestNG & Git — Month 1 Milestone	Phase 1	13		Not Started
W05	Concurrency + Framework Design Begins	Phase 2	13		Not Started
W06	JVM Internals + Playwright Launch	Phase 2	13		Not Started
W07	Design Patterns + Playwright Advanced	Phase 2	13		Not Started
W08	CI/CD Integration — Month 2 Milestone	Phase 2	13		Not Started
W09	System Design for SDETs	Phase 3	13		Not Started
W10	Technical Mock Interviews	Phase 3	13		Not Started
W11	Company-Specific + Gap Closing	Phase 3	13		Not Started
W12	Interview Readiness & Final Revision	Phase 3	13		Not Started

Coding Tracker

Cumulative target is ~218 problems across 12 weeks. Log solved counts and revisit misses.

Week	Target	Cumulative	Solved	Notes / Weak Topics
W01	15	15		
W02	20	35		
W03	18	53		
W04	20	73		
W05	20	93		
W06	16	109		
W07	22	131		
W08	18	149		
W09	15	164		
W10	12	176		
W11	12	188		
W12	30	218		

Mock Interview Schedule

When	Mock	Scope	Duration	Score	Feedback
Week 4 • Sun	Month 1 Mock	Core Java + Coding	45 min		
Week 8 • Sun	Month 2 Mock	Automation + API + Coding	60 min		
Week 9 • Sat	System Design Mock 1	Architecture walk-through	30 min		
Week 10 • Sat	Technical Mock 1	Java + Live Coding	60 min		
Week 10 • Sat	Technical Mock 2	Automation + API	60 min		
Week 11 • Sat	System Design Mock 2	Framework design	30 min		
Week 11 • Sat	Behavioral Mock	STAR + negotiation	45 min		
Week 12 • Sat	Full E2E Mock	All rounds combined	90 min		

Revision Tracker

Re-touch every area at least once per phase. Confidence below 4 ★ means schedule another pass.

Area	Last Revised	Confidence (1-5)	Next Revision
Core Java		★ ★ ★ ★ ★	
Java 8 & Streams		★ ★ ★ ★ ★	
DSA / Coding		★ ★ ★ ★ ★	
Selenium		★ ★ ★ ★ ★	
Playwright		★ ★ ★ ★ ★	
Framework Design		★ ★ ★ ★ ★	
API / REST Assured		★ ★ ★ ★ ★	
SQL		★ ★ ★ ★ ★	
DevOps & CI/CD		★ ★ ★ ★ ★	
System Design		★ ★ ★ ★ ★	
Behavioral / STAR		★ ★ ★ ★ ★	

Interview Readiness Matrix

Target for ₹24–30 LPA roles is 4 ★+ in every row. Book real interviews only when the Current column matches the Target column.

Round	Target	Current	Gap to Close
Core Java	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
DSA / Coding	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
UI Automation (Sel/PW)	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
API Automation	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
SQL / Database	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
System Design	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
Behavioral / HR	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	
Company-Specific	★ ★ ★ ★ ☆	☆ ☆ ☆ ☆ ☆	

Plan the work. Then work the plan — one week at a time.
