SDET Interview Notes & Revision Handbook

A reusable notebook · Filled over 3 months

Not a study guide — a structured, blank notebook to capture everything you learn through your interview preparation. Your concepts, your questions, your mistakes, your notes.

Contents

This is a notebook, not a textbook. Each chapter is a blank, structured template — fill it in your own words as you learn. Mark status, capture key points, log the questions you were asked and the mistakes you made, and revise from your own notes. Print it, or type into it. Fill it gradually over the next three months.
